#	QTY	HARDWARE	DIMENSIONS	SUPPLIER / SPECIFICATION
01	4	Socket-head screw M6 × 20 mm ISO 4762 M6 × 20 Standard part Part number ISO 4762 M6 socket 20 From Hole Series 2	As its standard	Supplier not provided Search for this part Not mapped
02	4	Socket-head screw M8 × 25 mm ISO 4762 M8 × 25 Standard part Part number ISO 4762 M8 socket 25 From Hole Series 1	As its standard	Supplier not provided Search for this part Not mapped
03	2	Socket-head screw M10 × 50 mm ISO 4762 M10 × 50 Standard part Part number ISO 4762 M10 socket 50 From Hole Series 3	As its standard	Supplier not provided Search for this part Not mapped
04	2	Plain washer M10 ISO 7089 10 Standard part Part number ISO 7089 M10 From Hole Series 3	As its standard	Supplier not provided Search for this part Not mapped
05	2	Hex nut M10 ISO 4032 M10 Standard part Part number ISO 4032 M10 From Hole Series 3	As its standard	Supplier not provided Search for this part Not mapped

What is counted. The screws, washers, nuts and pins the Hole Series in this design are made for, a set per hole, with standard lengths from the parts each hole measured. A linked-file Hole Series counts once, in the assembly that made it. Fasteners placed with Fusion's Insert Fastener are not read.

Designations. Each row is named by its standard, thread and length; the add-in does not know its grade, material or finish. Verify the selected supplier specification before purchasing.

Lengths. Rounded to 0.001 mm where needed; the CSV export keeps the exact values.
